# WHAT THIS IS FOR

This toolkit was designed to empower **Fair Districts** volunteers, members and local leaders of the **League of Women Voters of Ohio**, members of **Common Cause Ohio**, and supporters of redistricting reform everywhere as we all work to get the **Citizens Not Politicians** Amendment onto the ballot in 2024.

Our goal is to provide you with the essential tools and information needed to effectively communicate the importance of this amendment, equip you with persuasive talking points, eye-catching graphics, informative explainers, and best practices to engage and mobilize your communities.

Together, we will end gerrymandering in Ohio and strengthen our democracy for generations to come.

# REDISTRICTING BASICS

## What is redistricting?

**REDISTRICTING:** process of drawing the boundaries of electoral districts, which happens every 10 years after the US Census to ensure each district has roughly equal population.

### **FAIR AND EQUAL REPRESENTATION IS THE GOAL**

- But when politicians are the ones drawing the districts, their goal is to protect their power, not voters.

## What is gerrymandering?

**GERRYMANDERING:** When electoral districts are drawn by the political party in power to benefit their party and protect incumbent politicians to maintain their power with the intention of influencing elections to their advantage.

### **GERRYMANDERING MANIPULATES DISTRICT LINES BY EITHER:**

- **PACKING:** concentrating as many voters from a particular party or demographic group into one district to reduce their influence in other districts OR
- **CRACKING:** splitting voters from a particular party or demographic group up to dilute their voting power, making it harder for them to influence election.

### **RIGGING ELECTORAL DISTRICTS IN FAVOR OF POLITICIANS IN POWER IS THE GOAL**

- The purpose of gerrymandering is to rig political outcomes by creating districts that always vote for the same political party, keeping those districts "safe" for the incumbent party.

- ***Gerrymandered districts let representatives pick their voters*** instead of voters picking their representatives. That's not how democracy is supposed to work!
- ***Gerrymandering skews election results, making for a legislature that does not accurately reflect the will of the voters.***
- ***Gerrymandering undermines voter participation*** because voters don't see their votes affecting policies that improve their lives.
- ***Gerrymandering distorts democracy***, leading to political outcomes and policy decisions that aren't what the majority of voters actually want.
- ***Gerrymandering allows the party in charge to stay in charge by weakening the power of the opposing party***, and making individual voters less impactful.
- ***Gerrymandering creates uncompetitive districts*** so the incumbents and the party in power can't be held accountable.
- ***Politicians can do whatever they want*** when they know their seats are safe.
- ***Gerrymandering creates extreme candidates***: When there's no competition between parties, the competition happens in the primary, where voters are often more extreme than voters in general elections. To win, candidates have to promise to promote extreme policies. That's not what most Ohioans want.
- ***Gerrymandering creates a hyperpartisan environment***: Compromise is disincentivized between parties, and even with people of more moderate viewpoints within the same party.
- ***Gerrymandering makes our government dysfunctional***: real problems can't get solved because no one has reason to compromise, so nothing gets done.

Are you passionate about any kind of policy that is decided in the Statehouse? The future of that policy depends on whether we can get rid of gerrymandering... or not.

<p>What's the solution?</p>	<p><b><i>PASS THE CITIZENS NOT POLITICIANS AMENDMENT IN 2024</i></b></p> <p><b><i>EMPOWER CITIZENS TO CREATE DISTRICT MAPS AND TAKE POLITICIANS OUT OF THE MAP-MAKING PROCESS</i></b></p>
<p>The Citizens Not Politicians Amendment will:</p>	<p>Amend the Ohio Constitution to:</p> <ul style="list-style-type: none"> <li>• <b>Create the 15-member Ohio Citizens Redistricting Commission</b>, made up of Democratic, Republican, and Independent citizens who broadly represent the different geographic areas and demographics of the state.</li> <li>• <b>Ban current or former politicians, political party officials, and lobbyists from sitting on the Commission.</b></li> <li>• <b>Require fair and impartial districts</b> by making it unconstitutional to draw voting districts that discriminate against or favor any political party or individual politician.</li> <li>• <b>Require the commission to operate under an open and independent process.</b></li> </ul>
